

E-Z VAC®

KREEPY KRAULY® E-Z VAC® ABOVEGROUND POOL CLEANER

THE WORLD'S BEST BUILT ABOVEGROUND POOL CLEANER

The Kreepy Krauly E-Z Vac cleaner is designed just for aboveground pools, but its design is based on the same time-tested platform as the most popular suction-side cleaner in history: Kreepy Krauly Inground Pool Cleaner.

The E-Z Vac cleaner features:

- Superior hydraulic design delivers optimum vacuuming power, and true random-pattern coverage makes sure floor is thoroughly vacuumed.
- Simple design for long, dependable life—"flapper" is the only operational moving part.
- Virtually maintenance-free—no wheels or gears to jam, no diaphragms to replace, no bags or compartments.
- Free-skimming adjustable valve regulates water flow to assure proper cleaning speed while allowing skimming of surface debris—both cleaning jobs are completed at once.
- Works flawlessly in both flat-bottomed and dish-shaped pools with a banked or radius cove.
- Installs in minutes to your skimmer without tools.

KREEPY KRAULY® E-Z VAC®

ABOVEGROUND POOL CLEANER

Drive Tubes: Where water flow is intermittently directed to generate kinetic energy for mobility

Bumper Strap: Protects the unit, allows freedom of movement around steps and ladders

Swivel: Converts water flow into a single stream for maximum hydraulic efficiency and peak cleaning performance

Adjustable Regulator Valve: Sets ideal travel speed for more thorough cleaning

Flapper: The only operational part is housed inside the unit. Divides water flow to help propel the E-Z Vac cleaner

EIGHT REASONS WHY THE E-Z VAC CLEANER IS THE BEST ABOVEGROUND CLEANER YOU CAN BUY

- It's thorough. The superior hydraulic design of the Kreepy Krauly E-Z Vac cleaner delivers optimum vacuum power, and its true random-pattern coverage makes sure your pool floor is thoroughly vacuumed.
- It's dependable. The E-Z Vac cleaner's simple design ensures a long, dependable life—"flapper" is the only operational moving part.
- It's virtually maintenance-free. No wheels or gears to jam or wear out, no diaphragms to replace, no bags or compartments to empty.
- It's a multitask system. Free-skimming adjustable valve regulates water flow to assure proper cleaning speed while allowing simultaneous skimming of surface debris—both cleaning jobs are completed at once.
- It's engineered for your pool. Works flawlessly in both flat-bottomed and dish-shaped pools with a banked or radius cove.
- It's easy. Attaches to your pool skimmer in minutes without tools, so it can start vacuuming leaves, dirt, sand, insects and other debris from your pool immediately.
- It's backed by one of the world's largest pool equipment manufacturers. Got a question? Contact our toll-free consumer helpline. Live technical experts are there to help.
