WATER CHILLER

TropiCool™

WATER CHILLER

COOL YOUR POOL RELIABLY

The TropiCool Water Chiller is designed to lower the temperature of your swimming pool to a refreshing and enjoyable experience throughout the summer. A heat pump gives you consistent performance, while other cooling systems struggle to keep up in humid climates.

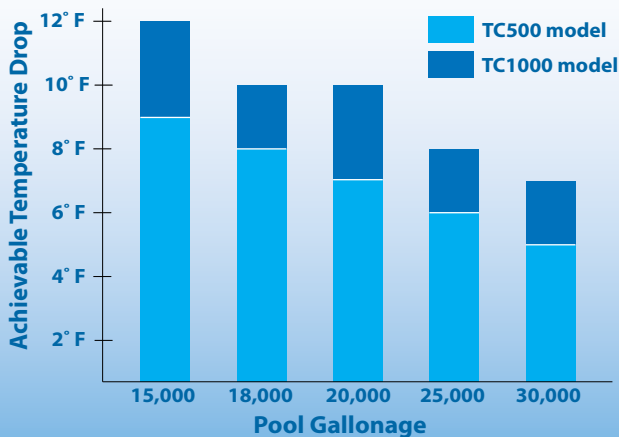

- Set your desired temperature to maintain
- Small footprint fits almost anywhere
- Very quiet operation
- Helps conserve water, does not work on evaporation
- Consistent performance regardless of humidity
- Titanium heat exchanger impervious to harsh water chemistry
- Ability to chill as low as 45° F for cold plunge pools
TC500 for cold plunge up to 2,500 gallons;
TC1000 for cold plunge up to 3,500 gallons
- Operating cost for TC500 is 50¢ per hour, TC1000 is 75¢ per hour Based on 12¢ per kWh

MADE IN USA

Model Selection Guide for Most Climates Minimum Expected Temperature Drop

Extreme climates with consistent temperatures in excess of 100° F may experience the need for extended runtimes, larger units or multiple units.

	TC500	TC1000
Voltage/Hz/Phase	208-230/60/1	208-230/60/1
Minimum Circuit Ampacity	26.1	36.9
Maximum Fuse Size	45	60
Water Flow Min/Max (gpm)	30/60	30/70
Physical Dimensions (in)	36" x 24" x 31"	38" x 28" x 40"
Shipping Weight (lbs)	215	285
