

Kreepy Krauly Automatic Pool Cleaners

Kreepy Krauly automatic pool cleaners by Pentair allow pool owners to keep their swimming pools clean with minimal time and effort. Maintaining a clean swimming pool is important for several reasons. For example, clean pool water is healthier for swimmers as it is less likely to contain bacteria and other dangerous contaminants. Clean water also provides better visibility within the pool, allowing for better swimmer supervision. Finally, maintaining a clean pool will keep the pool surfaces and equipment in good shape, thereby extending the pool's lifespan and protecting your investment.

[Kreepy Krauly automatic pool cleaners](#) have been designed to rapidly remove dirt and debris from swimming pools so pool owners and swimmers can enjoy all of the above benefits of clean pool water without any backbreaking work. While the effective cleaning performance of Kreepy Krauly automatic pool cleaners makes them popular among pool owners, so too does the outstanding reputation of their manufacturer, Pentair. As one of the leading brands in the pool supply industry, Pentair has a solid, long-standing reputation for providing high quality and reliable products.

Kreepy Krauly automatic pool cleaners are available in a wide variety of models, including above ground pool cleaners and in-ground pool cleaners. The following information describes the features and characteristics of a select number of above ground and in-ground Kreepy Krauly automatic pool vacuums.

Above Ground Kreepy Krauly Automatic Pool Cleaners

[Kreepy Krauly E-Z Vac](#)

The Kreepy Krauly E-Z Vac is a very versatile above ground pool cleaner. This model has the ability to clean any above ground swimming pool, including those with dished out or flat bottoms. The Kreepy Krauly E-Z Vac can also clean round and oval pools and is able to navigate pool bottoms without becoming obstructed by irregularities. This ability, along with the fact that the Kreepy Krauly E-Z Vac provides random pattern coverage, allows the automatic cleaner to provide very thorough and effective cleaning.

The Kreepy Krauly E-Z Vac is an automatic pool cleaner that comes with many great features. For example, this Kreepy Krauly vacuum features free skimming valves which regulate water flow to maintain an ideal cleaning speed. Powered by the pool's pump and filter, the E-Z Vac hooks up to the skimmer line and will even skim the surface of the swimming pool in addition to vacuuming the bottom. This Kreepy Krauly automatic above ground pool cleaner features just one moving part for excellent durability and has no messy vacuum bags to deal with.

[Kreepy Krauly 'Lil Shark](#)

Another great automatic cleaner for above ground swimming pools is the Kreepy Krauly 'Lil Shark. This powerful cleaner attacks dirt and debris and will effectively remove built-up grit and grime with its two-way cleaning and scrubbing action. The Kreepy Krauly 'Lil Shark automatic above ground pool cleaner features a unique vortex chamber design, an innovative brush ring adjuster and two rings of nylon bristles. As with the Kreepy Krauly E-Z Vac, the 'Lil Shark has just one moving part and provides great durability as well as dependable operation season after season.

In-Ground Kreepy Krauly Automatic Pool Cleaners

**Kreepy Krauly®
Automatic Pool Cleaner**

[Kreepy Krauly Classic](#)

The Kreepy Krauly Classic is a suction-side in-ground pool cleaner that has a reputation for dependability and exceptional performance. With its innovative dive float directional system, its turbo action swivel design and its regulator valve, the Kreepy Krauly Classic automatic in-ground pool cleaner assures maximum power as well as thorough cleaning from the water line to the pool floor. The Kreepy Krauly Classic can also maintain an ideal cleaning speed with its automatic valve and can vacuum up a wide range of debris with its large intake throat. With no wheels or gears to replace, the Kreepy Krauly Classic has been designed to provide many years of quality service.

**Kreepy Krauly Sand Shark
Automatic Pool Cleaner**

[Kreepy Krauly Sand Shark](#)

When it comes to keeping in-ground swimming pools spotlessly clean, another great option is the Kreepy Krauly Sand Shark. The Kreepy Krauly Sand Shark is completely self-steering and provides truly automatic cleaning. With several rows of squeegee-like fins, these automatic in-ground pool cleaners are able to provide excellent scrubbing power, dislodging stubborn dirt and grime before removing it from the pool. Ideal for use in many types of in-ground swimming pools, even those with specialty surfaces, the Kreepy Krauly Sand Shark automatic pool cleaner is known for providing exceptional performance. With the ability to avoid getting caught up on ladders, steps and other obstacles, the Kreepy Krauly Sand Shark will work continuously, reliably and diligently until your swimming pool is sparkling clean.

**Kreepy Krauly Legend
Automatic Pool Cleaner**

[Kreepy Krauly Legend](#)

The Kreepy Krauly Legend automatic in-ground pool cleaner is a pressure-side cleaner which operates off a separate booster pump for optimal power. Its large intake throat can handle debris large and small, as can its high-capacity debris bag. The Kreepy Krauly Legend features front-wheel drive which prevents tipping and provides excellent traction on inclined surfaces. This automatic in-ground pool cleaner will skim the water's surface as it cleans and will thoroughly clean most in-ground pools in just one to three hours.

**Kreepy Krauly Prowler
Robotic Pool Cleaner**

[Kreepy Krauly Prowler](#)

Another popular and dependable in-ground cleaner is the Kreepy Krauly Prowler, a robotic pool cleaner. Computer-controlled, the Kreepy Krauly Prowler is entirely independent of the pump and filtration system and will clean in-ground pools of any shape up to 50 feet in length. With a powerful motor and a jet drive propulsion system, this robotic cleaner can provide total pool cleaning in just one hour and is an efficient, energy-saving cleaner. The Prowler's dual pressure wash jets can remove dirt and algae from hard to reach areas while its internal filtration system can remove bacteria and other contaminants as small as two microns. Providing truly automatic and remarkably thorough cleaning, the Kreepy Krauly Prowler is a top choice for many in-ground pool owners.
