

eco SAVER
SOLAR
 HEATING SYSTEM

20% LARGER
 than other panels.
 Larger panels means more heat for your pool!

INSTALLATION OPTIONS

on the Ground

on a Roof

on a Rack

on a Garage

EASY TO INSTALL

1
 Unroll the flexible, easy to handle Eco-Saver panel

2
 Connect one hose from the pool filter to the Eco-Saver panel

3
 Connect the other hose from the Eco-Saver panel to the pool inlet fitting

WORKS WITH YOUR POOL FILTER SYSTEM

Using your existing filter system, water circulates through the Eco-Saver solar panel, is heated by the sun and returned to the pool through the existing fitting.
