

The Pool Stool™

Because it's better than standing.

Envy Pool Products LLC introduces the patent pending Pool Stool. Hosting a party with submergible yet temporary bar stools that fit directly into the pool was the primary reason for the development of this product. The Pool Stool will create the look and feel of an island swim up bar without the expense & commitment of a permanent structure. The Pool Stool is designed for residential pool owners, hotels, resorts, universities & home owner association pools.

Product Features:

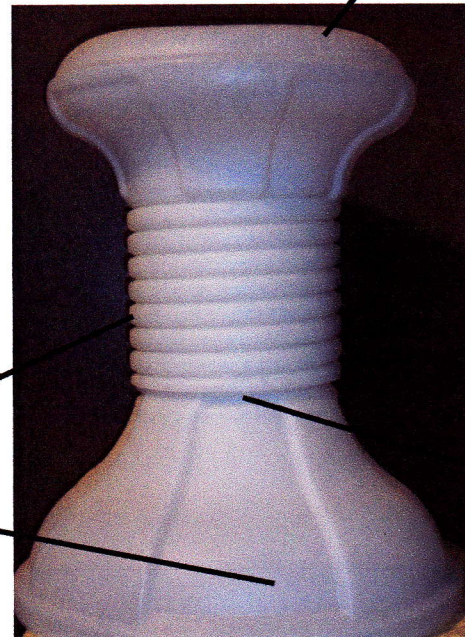

- Rechargeable LED Lighting
- Remote - controls the fade, flash and single color choices
- 54 LEDs create 6 colors lasting 12 hours per charge
- Height adjustability for 3 or 4 foot pools
- Internal bottle weight is filled with sand, permanently capped and screws into the base for added strength and stability
- Manufactured from the highest quality resin
- UV, chlorine and salt water resistant
- Safe for all pools
- Made in America
